1. Introduction & Public Services Overview

1.1 Welcome to KP Fisheries E-Licensing

The Directorate General of Fisheries, Government of Khyber Pakhtunkhwa, welcomes all recreational anglers, sportfishing enthusiasts, and nature tourists to the **Recreational Fisheries Licensing & Management System (RFLMS)**. Khyber Pakhtunkhwa is renowned across South Asia for its pristine freshwater ecosystems, encompassing world-famous snow-fed trout rivers in Swat, Kumrat, and Kaghan, as well as expansive reservoirs like Tarbela, Khanpur, and Tanda dams teeming with Mahseer and Carps.

To modernize departmental interactions, eliminate administrative bottlenecks, and protect aquatic biodiversity, the Government has transitioned from outdated manual paper challans to a 100% digital, mobile-friendly licensing platform.

1.2 Why Digital E-Licensing? (Benefits to Citizens)

- **Apply from Anywhere, Anytime:** Apply for permits 24/7 from the comfort of your home or mobile phone without visiting government offices.
- **Instant Digital Delivery:** Once approved, your official digital permit with QR verification is available on your dashboard immediately.
- **No Physical Bank Queues:** Pay seamlessly through online banking, 1Bill / PSID, mobile wallets (EasyPaisa/JazzCash), or standard bank deposit slips.
- **Interactive 3D Licence Card:** Access a tamper-proof digital card complete with your photograph, authorized fishing dates, bag limits, and security hologram.
- **Public Safety & Legal Protection:** Carry your digital permit on your phone to prevent disputes with field enforcement teams.

1.3 Public Access Points & Browser Compatibility

Channel / Endpoint	Access Details & Compatibility
Public Web Portal	https://[portal-domain]/ — Fully responsive across desktop browsers (Chrome, Edge, Firefox, Safari) and mobile browsers on Android and iOS.
Citizen Account Area	https://[portal-domain]/account — Dedicated self-service hub for managing profile, tracking applications, and viewing active permits.
Public QR Verification	https://[portal-domain]/verify/licence/[qr_token] — Instant scanning via smartphone camera.
Whistleblower Portal	https://[portal-domain]/report-violation — Open public portal to report illegal fishing without requiring login.

1.4 Prerequisites for Applying

Before initiating an application, ensure you have the following ready:

1. **Valid Pakistani CNIC:** Standard 13-digit Computerized National Identity Card number (e.g. 12345-1234567-1).
2. **Active Email Address:** Used for registration and receiving one-time passcodes (OTP).
3. **Active Mobile Number:** For status updates and emergency contact.
4. **Digital Portrait Photo:** Clear face photo (JPEG/PNG, max 2MB) to be printed on your licence card.
5. **Payment Proof:** Screenshot or photo of online bank transfer, bank deposit slip, or 1Bill receipt.

2. What Citizens & Anglers Can Do (Services & Capabilities)

The public portal offers an array of self-service capabilities designed to make your fishing experience enjoyable, lawful, and transparent.

2.1 Public Water Bodies Catalog & Discovery

Available at /water-bodies without requiring login, citizens can explore the provincial fisheries directory:

- **Search & Filter:** Search waters by name (e.g. *Khanpur, Kundal*) and filter by geographic district (e.g. *Swat, Haripur, Kohat*).
- **Ecological & Trout Details:** Discover whether a water body is classified as *Trout* (cold-water salmonids), *Non-trout* (warm-water carps/catfish), or *Mixed*.
- **E-Licence Status Check:** Instantly check whether a reservoir is currently **OPEN FOR E-LICENCE** or closed for conservation.
- **GPS & Directions:** View exact GPS coordinates (Latitude/Longitude) and open satellite Google Maps pins for trip planning.
- **Species Diversity & Notes:** Learn about resident fish species (Brown Trout, Rainbow Trout, Mahseer, Rohu, Mori, Singari) and local gear rules.

2.2 Online Angler Registration & Secure Verification

Citizens can register for a personalized account at /register:

- **Email OTP Verification:** Protects against unauthorized accounts by dispatching a secure 6-digit one-time password to your email.
- **Single Citizen Account:** Your CNIC-linked account preserves your application history, past permits, payment vouchers, and digital licences in one unified vault.

2.3 Complete Digital Angler Profile Management

Located at /account/profile, anglers maintain their verified civil identity:

- **Profile Dossier:** Full Name, Father's Name, CNIC, Mobile, Date of Birth, Gender, Province, Home District, and Postal Address.
- **Angler Card Photo Upload:** Direct upload of your portrait photo (JPG, PNG, max 2MB) that is automatically rendered on the face of your digital e-licence card.
- **Emergency Contact Information:** Registering emergency contact details for safety while fishing in remote river valleys or deep reservoirs.

2.4 9-Dot Pattern Lock Account Security

For anglers accessing the system on shared family devices or public computers, RFLMS provides an innovative **9-Dot Pattern Lock** security feature:

- **Gesture-Based Security:** Draw an interactive gesture connecting at least 4 dots across a 3x3 grid.
- **Two-Factor Protection:** Once enabled, logging in requires both your password and your custom drawn pattern sequence, preventing unauthorized access even if your password is compromised.

2.5 Applying for E-Licences (Daily, Weekly, Monthly, Seasonal)

Anglers can submit permit applications directly from any water body page:

Category Type	Validity Duration	Purpose & Best Suited For
Daily Angling	1 Calendar Day	Short weekend trips, day tourists, and one-off recreational visits.
Weekly Angling	7 Consecutive Days	Holiday vacationers spending a full week fishing in valleys like Swat or Kaghan.
Monthly Angling	30 Consecutive Days	Extended seasonal stays and frequent local recreational anglers.
Seasonal Angling	Until June 30 of current fiscal year	Annual passionate anglers. Terminates on June 30 under provincial fiscal rules.

2.6 Multiple Flexible Payment Channels

RFLMS accommodates all modern Pakistani banking options:

- **1Bill / PSID System:** Instant electronic invoice code reconcilable via 1Bill on mobile banking apps (e.g. Meezan, HBL, Allied, MCB), EasyPaisa, JazzCash, and ATMs.
- **Online Bank Transfer:** Direct interbank transfer (IBFT) to the official KP Fisheries account with upload of the transaction screenshot.
- **Bank Deposit Slip:** Cash deposit at National Bank of Pakistan (NBP) or Treasury branch with upload of the stamped deposit counterfoil.

2.7 Real-Time Application Tracking & Feedback

From your dashboard (/account/applications), you can observe every stage of your application:

- **Status Indicators:** Track states from **SUBMITTED** → **UNDER REVIEW** → **APPROVED**.
- **Officer Remarks & Corrections:** If your uploaded slip is unclear, the inspecting officer returns the file with specific instructions under **INFO REQUIRED**. You can update your submission directly without re-paying or re-starting.

2.8 Interactive 3D Digital Licence Card & QR Verification

Once sanctioned, your digital licence is available at /account/licenses/{id}/card:

- **3D Flip Animation:** Interactive card viewer that flips smoothly between Front and Back faces with dynamic ambient lighting and holographic sweep effects.
- **Front Face:** Features official KP government emblem, your portrait photo, full name, CNIC, Licence Number, Category badge, validity dates, and high-contrast QR code.
- **Back Face:** Displays the legal Daily Bag Limit (catch quota), allowed angling gear, statutory terms, and departmental helpline.
- **Print & Offline Save:** One-click print button formatted to output a standard pocket-sized licence card on your home printer or PDF.

3. How Citizens Can Do It (Step-by-Step Operational Guide)

This section provides clear, illustrated, step-by-step procedures for every service available on the public site.

3.1 How to Create an Account with Email OTP Verification

PROCEDURE 3.1

Citizen Account Registration

1. Navigate to the homepage ([https://\[portal-domain\]/](https://[portal-domain]/)) and click the green **Register** button in the top right (or visit </register>).
2. Complete the initial registration fields:
 - **Full Name:** Enter your name as printed on your CNIC.
 - **Email Address:** Enter an active email address you have access to.
 - **CNIC No.:** Enter your 13-digit CNIC in standard format: 12345 - 1234567 - 1.
3. Click the green button: **Send OTP**.
4. Check your email inbox (and Spam/Junk folder) for an email from *KP Fisheries RFLMS* containing a **6-digit verification code** (valid for 10 minutes).
5. On the verification screen (</register/verify>):
 - Enter the **6-digit OTP**.
 - Create a secure **Password** (minimum 8 characters with letters and numbers).
 - Re-enter password in **Confirm Password**.
6. Click **Verify & Create Account**. Your account is activated, and you are automatically logged into your dashboard.

3.2 How to Log In & Use 9-Dot Pattern Lock

PROCEDURE 3.2

Logging In & Pattern Verification

1. Visit [https://\[portal-domain\]/login](https://[portal-domain]/login).
2. Enter your registered **Email** and **Password**. Click **Sign in**.
3. **Standard Account:** If Pattern Lock is disabled, you are taken immediately to your Citizen Dashboard.
4. **Pattern Protected Account:** If you previously enabled Pattern Lock, the system routes you to the **Pattern Verification Screen** (</login/pattern-verify>).
 - Touch and drag your finger or mouse across the 9-dot circular matrix to connect your secret sequence.
 - Click **Verify Pattern & Access Dashboard**.

3.3 How to Complete Your Angler Profile

Mandatory Prerequisite:

Under departmental regulations, you cannot submit an e-licence application until your profile is complete with a photo and CNIC information.

PROCEDURE 3.3

Completing the Angler Profile Dossier

1. Log into your account and click **Profile** in the navigation bar (or visit /account/profile).
2. **Profile Picture:** Click *Choose File* under Profile Picture and upload a clear passport-style face photo (max 2MB, JPG/PNG). This photo will appear on your official licence card.
3. **Demographics:**
 - Verify your **Full Name** and **CNIC**.
 - Enter your **Father / Husband Name**.
 - Enter your **Mobile Number** (e.g. 0300 - 1234567).
 - Select your **Date of Birth** from the calendar.
 - Select your **Gender** (*Male, Female, Other*).
 - Select your **Residence District** from the dropdown of 36 KP districts.
 - Input your **Postal Address** and an **Emergency Contact** number.
4. Click **Save profile**. A green alert confirms: "*Profile updated successfully.*"
5. (Optional) Scroll down to **Pattern Lock Security**, toggle the switch **ON**, and draw a 4+ dot pattern sequence to enable two-factor login protection.

3.4 How to Explore Water Bodies in the Public Catalog

PROCEDURE 3.4

Browsing Fishing Waters

1. From the top menu, click **Water bodies** (/water-bodies).
2. Use the search filter bar:
 - Select a **District** (e.g. *Swat*) to view waters in that area.
 - Select a **Type** (e.g. *Dam / Reservoir* or *River*).
 - Type a query in the search bar (e.g. "*Kundal*" or "*Khanpur*").
3. Browse the reservoir cards. Each card displays the lake name, district, trout classification, and a status badge:
 - **OPEN FOR E-LICENCE**: Eligible for immediate online application.
 - **CLOSED**: Reserved, commercial lease, or under conservation.
4. Click **View details** on any reservoir to inspect fish species notes, supervising fisheries office contacts, and GPS location.
5. Click the green **Apply for Licence** button to begin your application for this water body.

3.5 How to Apply for an E-Licence Online

PROCEDURE 3.5

Submitting an E-Licence Application

1. From a reservoir's detail page, click **Apply for Licence** (/account/water-bodies/{id}/apply).
2. Verify the selected **Water Body** and supervising district office displayed at the top.
3. **Step 1: Choose Licence Category:**
In the *Licence Category* dropdown, select your preferred duration (e.g. *Daily Angling Permit — 500 PKR* or *Seasonal Angling — 3,000 PKR*). The fee tariff and validity days are displayed automatically.
4. **Step 2: Select Fishing Start Date:**
Pick the date when you intend to begin fishing. Defaults to today's date.
Caution: If you choose a date that falls during the statutory Closed Breeding Season (e.g. June 1 to July 31), the system will prevent submission.
5. **Step 3: Choose Payment Method:**
 - Online bank transfer: If you plan to transfer fee via mobile banking app.
 - Bank deposit: If depositing physical cash at National Bank / Treasury.
 - 1Bill / PSID: For payment via 1Bill / ATM consumer number.
6. **Step 4: Enter Payment Reference & Attach Proof:**
 - For Bank Transfer / Deposit: Enter transaction scroll / TID reference number in **Payment Reference**.
 - Click *Choose File* under **Attach Payment Slip** and upload screenshot or photo of the deposit slip (JPG/PNG/PDF, max 4MB).
7. **Step 5: Consent & Submit:**
Check the box: **"I agree to the terms and regulations of Khyber Pakhtunkhwa Fisheries Department."**
Click the green button: **Submit Application**.
8. The system displays the **Application Success Screen** (/account/applications/{id}/success) showing your unique **Application Tracking Number** (e.g. APP-2026-00045).

3.6 How to Pay via 1Bill, Bank Transfer, or Deposit Slip

Payment Channel	Step-by-Step Instructions
1Bill / PSID FASTEST	1. On the success screen, note your PSID Code (e.g. PSID-DEM0-XXXXXXXXXX). 2. Open your mobile banking app (HBL, Meezan, Bank of Khyber, EasyPaisa, etc.). 3. Navigate to <i>Bill Payments</i> → select 1Bill / Government Payments. 4. Enter your PSID number. The system retrieves your exact fee and applicant name. 5. Confirm payment. Your application transitions automatically for staff verification.
Online Bank Transfer (IBFT)	1. Transfer the fee amount to the official departmental account displayed on screen. 2. Take a clear screenshot of the bank transfer confirmation showing Transaction ID (TID), Date, and Amount. 3. Upload the image during application submission and enter the TID in the Payment Reference field.
Bank Deposit Slip (NBP)	1. Visit any branch of National Bank of Pakistan (NBP) or designated Treasury Office. 2. Fill the departmental credit voucher under Head of Account: <i>Fisheries Receipts</i>. 3. Snap a clear photo of the stamped bank deposit counterfoil and upload it with your application.

3.7 How to Track Your Application Status & Respond to Info Requests

PROCEDURE 3.7

Tracking Progress & Responding to Queries

1. Log in and click **Applications** in the top navigation (/account/applications).
2. Locate your application in the list to check the current status badge:
 - **SUBMITTED / UNDER REVIEW**: File is currently being audited by the district fisheries officer.
 - **APPROVED**: Permit is active! Click *View Licence Card* to open your permit.
 - **INFO REQUIRED**: The inspecting officer has requested clarification.
 - **REJECTED**: Application denied with official explanation.
3. If Status is "Info Required":
 - Click **View details** (/account/applications/{id}).
 - Read the **Officer Remarks** (e.g. *"Payment receipt is illegible. Please upload a clear scan of the deposit slip."*).
 - Click the **Update Application** button, upload the requested document, and re-submit. The officer is notified immediately.

3.8 How to View, Flip & Print Your Digital Licence Card

PROCEDURE 3.8

Accessing & Printing the 3D E-Licence Card

1. From your Applications page, locate an approved permit and click **View Licence Card** (/account/licenses/{id}/card).
2. The interactive 3D Card Scene loads:
 - **Flip the Card**: Click anywhere on the card (or tap the *"Flip Card"* button) to toggle between Front and Back faces with dynamic 3D rotation.
 - **Front Face Review**: Check your Photo, Full Name, CNIC, Licence Number (e.g. RFL - 2026 - 00045), Water Body, and Validity Period.
 - **Back Face Review**: Review the Daily Bag Limit (e.g. *6 Fish per Day*), authorized angling gear, and safety guidelines.
3. **Printing Your Card**:
 - Click the blue **Print Licence Card** button in the top toolbar.
 - The browser print dialog opens automatically formatted for pocket card printing or standard A4 paper.
 - Save as PDF to keep an offline copy on your smartphone when fishing in areas without cell reception.

3.9 How to Report Illegal Fishing / Poaching (Whistleblowing)

Citizens are the first line of defense in protecting KP's rivers and lakes. Anyone can submit a geo-tagged violation report:

PROCEDURE 3.9

Submitting an Illegal Fishing Incident Report

1. Navigate to **Report illegal fishing** in the top menu (or visit [https://\[portal-domain\]/report-violation](https://[portal-domain]/report-violation)). No login is required.
2. Select the **District** where the incident occurred.
3. (Optional) Select the specific **Water Body** from the filtered list.
4. Select the **Violation Type**:
 - *Dynamite / Explosives · Electric Generator Shock · Poisoning / Chemicals · Fine-Mesh Netting · Closed Season Fishing · Unauthorized Fishing.*
5. Select **When Occurred** using the date-time picker.
6. In **Description**, explain the incident: number of poachers, boat descriptions, vehicle numbers, or landmark references.
7. **Location Coordinates**: Enter Latitude and Longitude if known, or click the GPS icon to auto-capture your phone's coordinates.
8. **Evidence Photos**: Click *Choose Files* to attach up to 3 photographs of the violation (nets, gear, vehicle).
9. **Reporter Identity**: If logged out, you may enter your name and phone number, or leave blank to report **100% Anonymously**.
10. Click the green button: **Submit report**. The incident is immediately dispatched to the local DFO for investigation.

3.10 How to Verify Any E-Licence via Public QR Scan

PROCEDURE 3.10

Public Licence QR Verification

1. Open your smartphone camera app or any QR reader.
2. Point your camera at the QR code printed on the angler's digital screen or paper card.
3. Tap the verification link: [https://\[portal-domain\]/verify/licence/\[qr_token\]](https://[portal-domain]/verify/licence/[qr_token]).
4. Verify the verification screen:
 - **AUTHENTIC E-LICENCE VERIFIED**: Confirms genuine active permit issued by KP Fisheries.
 - **Privacy Shield**: Holder name is partially masked (e.g. M*****d A*i K**n) to safeguard citizen privacy while verifying authenticity.
 - Check water body authorization and ensure current date falls within valid dates.

4. Legal Angling Rules, Bag Limits & Conservation

Anglers operating in Khyber Pakhtunkhwa are legally bound by the provisions of the **Khyber Pakhtunkhwa Fisheries Act** and the regulations printed on their licence cards.

4.1 Statutory Closed Breeding Seasons (Spawning Protection)

- **Conservation Mandate:** During natural breeding periods, fish congregate in shallow spawning beds and are highly vulnerable. Fishing during these windows is strictly prohibited by law.
- **Annual Summer Spawning Closure:** Across provincial reservoirs and warm-water rivers, fishing is closed annually between **June 1 and July 31** (or dates officially notified in the Government Gazette).
- **Automated Block:** The e-licensing system automatically rejects any application with a start date during the closed season. Attempting to fish with an expired or fraudulent permit during this period carries double statutory penalties.

4.2 Daily Bag Limits (Catch Quotas) by Fishery Zone

To prevent over-exploitation and preserve trophy sportfishing for all anglers, strict daily retention limits apply:

Fishery Zone	Target Species	Daily Bag Limit & Gear Restrictions
Trout Waters (Swat, Kumrat, Kaghan)	Brown Trout, Rainbow Trout	Maximum 6 fish per day per angler. Gear strictly limited to single-hook artificial fly or spinning lure. Live bait, worms, and multiple treble hooks are strictly prohibited.
Mahseer Sanctuaries (Poonch, Siran, Tanda)	Golden Mahseer	Catch-and-Release strongly encouraged. Maximum retention of 2 fish per day. Barbless single hooks recommended.
Reservoirs & Dams (Tarbela, Khanpur)	Rohu, Mori, Thaila, Catfish	Maximum 10 kg total catch per day. Hook-and-line angling only (maximum 2 rods per licensed angler). Cast nets and gill nets strictly forbidden.

4.3 Prohibited Fishing Methods (Criminal Offenses)

Zero Tolerance Legal Notice:

Under Section 12 of the Khyber Pakhtunkhwa Fisheries Act, the following destructive fishing methods are classified as **non-bailable criminal offenses**

punishable by heavy fines, confiscation of vehicles, and imprisonment:

- **Dynamite & Explosives:**
Detonating explosive charges in rivers, pools, or reservoirs.
- **Electric Shock Generation:**
Using generators, batteries, or inverters to shock water bodies.
- **Poisoning & Toxic Chemicals:**
Dumping bleaching powder, pesticides, or toxic herbs into streams.
- **Fine-Mesh / Monofilament Gill Nets:**
Using mosquito nets or monofilament gill netting that indiscriminately traps juvenile fingerlings.

4.4 Single Active Licence Policy per Water Body

The RFLMS database enforces a **single active licence constraint**. An angler cannot hold two overlapping active licences for the same water body simultaneously. If you wish to fish in a different reservoir (e.g. you hold a Khanpur Dam permit and wish to fish in Swat River), you must apply for a separate permit designated for Swat River.

5. Citizen Troubleshooting & Frequently Asked Questions (FAQ)

Q1: I did not receive my 6-digit registration OTP email. What should I do?

Resolution:

1. Check your email's **Spam**, **Junk**, or **Promotions** folder.
2. Ensure you entered your email address correctly without typos.
3. On the registration screen, wait for the 60-second cooldown timer to elapse and click **Resend OTP**.

Q2: When I try to apply for a licence, the system says "Please complete your profile before applying". Why?

Resolution: You must navigate to /account/profile and complete all mandatory fields: Father's Name, Date of Birth, Gender, Home District, Postal Address, Emergency Contact, and upload a clear portrait photo. Once saved, you can immediately apply.

Q3: Why is my preferred fishing date blocked on the calendar?

Resolution: The date you selected falls inside the Government's statutory Closed Breeding Season (e.g. June 1 to July 31). Fishing is legally banned during spawning to allow fish to reproduce. Please choose a date before or after the closed season.

Q4: How long does it take for an application to be approved?

Resolution: Applications submitted with verified 1Bill / PSID payments are typically reviewed and approved within **2 to 6 business hours**. Bank deposit slip reviews may take up to 24 hours while treasury accounts are reconciled.

Q5: What should I do if my application status says "Info Required"?

Resolution: Click on your application to view the inspecting officer's comments. Common requests include re-uploading a clearer photo of your bank deposit slip or updating your CNIC details. Update the requested information and re-submit. You do not have to pay again.

Q6: Can I fish in Swat River with a Khanpur Dam permit?

Resolution: No. Every recreational angling licence is strictly water-body specific. Swat River is a cold-water trout fishery governed by different bag limits and tariffs than Khanpur Dam. You must hold a valid permit for each specific water body you fish in.

Q7: Do I need to print my licence card, or is the digital card on my phone sufficient?

Resolution: The digital card on your smartphone screen is 100% legally recognized. When approached by fisheries wardens, present your phone with the card open so they can scan the QR code. However, printing a physical card is highly recommended if visiting remote valleys where mobile battery or network coverage may be limited.

Departmental Citizen Support & Angling Inquiries:
